ENRD Workshop on NRN Facilitation Techniques for Stakeholder Engagement

Draft Agenda

4 March 2020
Calatayud, Spain

Background

A one-day workshop focused on NRN facilitation techniques for stakeholder engagement is designed to support NSUs to fulfil their tasks related to the NRN objective of 'more involved stakeholders'. This is a core part of all NSUs daily work but has a special importance at the current time given the active role several NSUs are playing in involving a broad range of stakeholders in the ongoing discussions on the preparation of the future national CAP Strategic Plans.

Objectives

The workshop aims to bring together NSU representatives and provide them with a common space to exchange on:

- their experience and expertise;
- different modern approaches in facilitation techniques.
